

Women Build 2024

homes | hope | community

Habitat for Humanity is the only provider of permanently affordable homeownership opportunities to low- income and workforce families in Island County. Habitat also provides critical home repairs to vulnerable low-income homeowners so they can stay safely in their homes.

Always a hand-up, not a hand-out. Habitat homeowner partners put in sweat equity to build their homes which they purchase with an affordable mortgage that is 30% or less of their gross income.

Habitat homes provide a brighter future and an opportunity to build wealth through homeownership — an opportunity that is increasingly out of reach for workforce families.
